PORTFOLIO

Ki - Music Writing Helper
iOS application
Built with Objective-C, Xcode

A simple yet powerful tool for musicians both new and experienced. Lists common musical keys and primary chords in each key. Generates and plays chord progressions in any selected key. Displays chord diagrams for guitarists. Achieved 4000+ downloads in 60+ countries.

Random Colour Picker
iOS application
Built with Swift
Generates random hex codes for web designers.

Space Blaze
iOS game
Built with SpriteKit

An endless game of survival.

Do You Even List
Android/iOS application
Built with HTML5, CSS, JS

A workout tracking utility.

See GitHub and website for further projects.
